EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Smith on 20 March 2006.

In the Claims:

The application has been amended as follows:

Claims 20-24 have been canceled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The claims of the instant application had previously been rejected over Ke et al. Ke et al. teaches administration of leptin to an individual in order to augment bone mass. Ke et al. teach that leptin is useful for treatment of conditions which present with low bone mass, including osteoporosis, bone fractures, osteotomy, etc. Ke et al. does not teach administration of leptin prior to a loss of bone mass, nor does Ke et al. teach that leptin inhibits bone resorption.

The claims have been amended to (1) limit the individuals to those in which bone resorption has not yet occurred or (2) limit the individuals to those having Paget's disease. The prior art of Ke et al. does not anticipate these

situations, nor does Ke et al. make administration of lepin obvious for these situations because Ke et al. does not teach that leptin inhibits bone resorption.

Therefore, the claims avoid the prior art of Ke et al.

The claims broadly recite leptin molecules or derivatives or chemical equivalents, or agonists. The methods of the claims are enabled for use of any of these types of compounds because the methods could be practiced with any compound that binds and activates the leptin receptor (which is what mediates the biological effects required in the methods).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine J. Saoud whose telephone number is 571-272-0891. The examiner can normally be reached on Monday-Friday, 6AM-2PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brenda Brumback can be reached on 571-272-0961. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
